

Grow your own tomatoes — with no garden

Hydroponic kits for growing tomatoes inside are flying off the shelves

Akarina 01

Akarina 01, £169.99, [akarina.uk](https://www.akarina.uk)

This white split-level flying-saucer job comes from Japan; when it's irradiating a crop of lettuces you might just take it for the last word in eco table lamps. Lights, starter pack of salad seeds and fertiliser are included.
